

Call for Exhibitors

The 10th International Symposium on Radiation Safety and Detection Technology (ISORD-10) will be held on July 16-19, 2019, in Taiyuan, China!

The ISORD symposium was jointly invented by the Tohoku University (Japan), Hanyang University (Korea) and China Institute for Radiation Protection in 2001. Since its 1st symposium in Seoul, it has been successfully held 9 times alternatively in Korea, Japan and China, and one in Malaysia. As a natural continuation, the upcoming ISORD-10 is expected to bring together about 300 outstanding radiation safety and detection scientists, technical experts, industry executives, and governmental officials from all over the world.

The technical sessions of ISORD-10 cover radiation detection technology and application, radiation transport and shielding, radiation dosimetry, environmental radiation measurement and assessment, radioactive waste management, and radiological emergency planning and preparedness. The symposium is committed to providing a platform for exchanging scientific and technical achievements in radiation safety and detection, showcasing products and services, discussing challenges faced by

radiation protection and highlighting future developments.

To provide opportunities for exhibitors to publicize their companies and popularize their latest products, a special exhibition area will be set up in the conference venue. We are now inviting exhibitors from all over the world to explore business cooperation in China. The details are as follows.

1. Principle

The application is based on the voluntary principle.

2. Eligibility

- Domestic and foreign enterprises, institutes, and other organizations intending to participate in the ISORD-10;
- With leading products or brands in the industry;
- With high-tech and innovative products.

3. Exhibition Stand Information

The exhibition area can accommodate 10 stands, and the price for each stand is RMB 20,000. All the stands will be arranged in the order of payment. For each exhibitor, we provide one stand and exempt registration fee for one person. Moreover, the logo and a brief introduction of the exhibitor will be printed in the conference brochure.

4. Contact of ISORD-10 Secretariat

Ms. Kang Juan

Tel: +86-351-2202325

Fax: +86-351-2202140

Email: kangjuan@cirp.org.cn

**Exhibitors are expected to submit application form before 30
April, 2019.**
